Railroads

**U.S. OFFICIALS ONLY**

1. At the following railway stations large locomotive groups were seen:

|                     |    |
|---------------------|----|
| BLINDENHAGEN        | 19 |
| STRASBURG/Uppermark | 14 |
| LUCHENOW            | 19 |
| WILNITZ             | 10 |

These were machines that had been completely overhauled.

2. A new railway stretch from FRANKFURT/Oder to BREST-LITOWSK is to be constructed. The work is supposed to begin on 1 April 1952.

3. PRENZLAU: The bridge construction on the road PRENZLAU-PASSENALK is progressing slowly. The second bridge pillar is being constructed at the present. The construction seems to be very strong. No details are known.

COMMENT:

1. This concerns some locomotives belong to the "kalt abgestellte" locomotive in the respective stations (total "abgestellt" respectively 29, 29, 30 and 29).

2. It is known that a new stretch from SZERZEWICZ south west of WARSAW to LUKOW south east of WARSAW is under construction. Its purpose is to lead the traffic around WARSAW.

3. This is probably the road bridge over the railroad in PRENZLAU. This bridge construction has earlier been reported as having been started in December 1951.

Classification

**SECRET/CONTROL U.S. OFFICIALS ONLY**
